Things I liked best about this course/instructor include:

Student	Response
Anonymous	Even though the semester was extremely difficult due to the pandemic and online learning, Dr. Rabotkina made the transition absolutely seamless. I am not an advanced player and I am always extremely self conscious about this; she lets me use lesson time to ask questions and talk things out in order to clarify things. She also relates all of our piano pieces back to the history of music and the era we are playing it. Her tactics for helping me play smoothly are very effective. I have improved drastically from when I started lessons last semester. Even the concerts that we do over zoom are as effective as they could be online and they give me the chance to improve my performance skills.
Anonymous	Extremely knowledgeable, really knows how to help students bring pieces to their full potential. Very helpful in teaching proper technique and preparing students for performances and exams.
Anonymous	Learn new music and experience different way by playing as duet.
Anonymous	The amount of hands-on experience was very helpful!
Anonymous	This class was extremely productive! I learned so much, and each lesson was very organized and helpful. The instructor is very knowledgeable and was very flexible when it came to meeting every student's covid accommodations.
Anonymous	This pedagogy course was geared very specifically towards my goals. It was the best pedagogy course I have taken so far.

My suggestions for improving this course are:

Student	Response
Anonymous	Could be a bit more clear when describing errors and how to overcome them.
Anonymous	Having handouts for the students would be very helpful when we are going over the historical pedagogy portions of the course.
Anonymous	N/A
Anonymous	Need to improve on communicate well to understand well each other. Professor should notify students important event correctly always, and do not push students too much on anything.
Anonymous	Sometimes lectures can be hard to maintain focus the whole time. Once COVID restrictions are done, I would love to see more interactive lessons. Bringing a student in and teaching them in front of the professor, perhaps? Maybe repertoire quizzes (with a good review before!) could also be a good way to test knowledge of repertoire.

I would or would not recommend this instructor to a friend because...

Student	Response
Anonymous	I recommend this course to anyone looking to teach piano as their career. It is catered specifically for a pianist, rather than just teaching in general. A lot of useful knowledge was passed on.
Anonymous	I would recommend this class to a friend! It was well organized and the instructor was brilliant!
Anonymous	I would recommend this course to pianists who want to play with group of people and have fun.
Anonymous	I would recommend this instructor! She has high expectations but also gives a lot of individual help.
Anonymous	I would recommend this professor because she is very understanding and extremely knowledgeable about her subject. Even though she is an expert, she can effectively relay the information to a beginner or intermediate student. This is 100% worth all of my tuition money for this course.
Anonymous	Would recommend, very thorough teaching and helps students to become overall better musicians.
